

The background of the entire page is a close-up, diagonal view of a wood grain. The grain lines run from the top-left towards the bottom-right, creating a strong sense of texture and movement. The colors range from light tan to deep, dark brown, highlighting the natural patterns of the wood.

EUROTECH FENCING SERIES

Durowood composite fences are a modern and sustainable fencing solution made from a blend of recycled wood fibers and plastic. They come in variety of styles and colors, offering homeowners a customized look that complements their homes architecture. Durowood composite fences are highly durable, with resistance to rotting, warping, cracking, and insects damage, making them virtually maintenance-free.

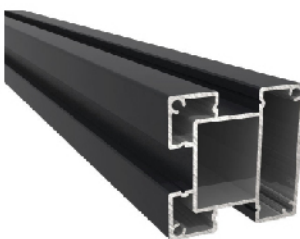

Using Durowood technology and lightweight aluminum posts, Durowood goes up quickly and stays up for decades. Just hose it down as the seasons change to keep your fences clean.
